HQHB · SignFlow — Beta Documentation

Version: Beta 1.0 • **Last updated:** June 2026 **Live URL (UAT):** <https://onesign.devhqhb.online>

Support: it@hqhb.in

This folder contains everything you need to launch SignFlow internally and onboard your teams.

What's in here

FILE	FOR	WHAT IT IS
<code>admin-handbook.md</code>	IT Admin (Taha)	Complete reference for managing users, teams, signatures, documents, reports, and the admin dashboard.
<code>user-guide.md</code>	All users (requestors + approvers)	How to sign in, submit requests, approve documents, use the mobile experience, manage your signature and password.
<code>launch-announcement.md</code>	Distribution	Ready-to-send email + WhatsApp/Teams message templates announcing the beta to all users.
<code>onboarding-checklist.md</code>	You	Step-by-step rollout checklist — what to do day -3 through day +14.
<code>quickref.md</code>	All users	One-page cheat sheet — keep it pinned.
<code>faq.md</code>	All users	Common questions answered upfront.
<code>templates/team-onboarding-form.xlsx</code>	Department heads	Multi-sheet Excel workbook (Instructions + Members) to share with each department head. Filled-in version gets uploaded via Admin → Onboard team.
<code>templates/team-onboarding-form.csv</code>	Department heads	Same as above, CSV variant for Google Sheets / plain-text workflows.
<code>templates/bulk-upload-template.xlsx</code>	You	Minimal template matching what the in-app wizard expects — name, email, role.
<code>templates/bulk-upload-template.csv</code>	You	CSV variant.

Recommended rollout order

1. **Day 0 — Soft-test on your own** — sign in as admin, create one test team, add yourself and one trusted colleague as members. Walk through requesting → approving → downloading a signed doc.
2. **Day 1 — Distribute the onboarding form** to department heads. Use the template in `onboarding-form.csv`.
3. **Day 3–5 — Collect responses**, then bulk-import each team via **Admin** → **Onboard team**.
4. **Day 5 — Send the launch announcement** (in `launch-announcement.md`) to all users with their credentials.
5. **Day 6 onwards — Live.**

Branding

All HQHB SignFlow branding uses:

- **Navy ink:** #0F1A2E
- **Gold:** #B8894A
- **Cream paper:** #F5F1E8
- **Fonts:** Fraunces (display), IBM Plex Sans (body), IBM Plex Mono (code)
- **Tagline:** *Request. Review. Approve. Track. All in one place.*
