Sign-in

ACTION	WHERE
Sign in	URL above → email + password from welcome email
Forgot password?	Sign-in screen → "Forgot password?" link → enter email → check inbox
Change password	Top nav → Password (key icon) → current + new + confirm
Sign out	Top nav → Sign out
Update signature	Top nav → Signature (pen icon)

Requestors — submit a document

1. **Make a new request** (home tile or Quick Action)
2. Pick a type — *Leave / Document / Expense / Invoice / Other*
3. **Upload** PDF or Excel (or use the Leave form if Leave)
4. Pick **Single approver** or **Multi-step workflow**
5. **Drag a box** where the signature goes
6. Pick the **target team** (or build workflow steps)
7. Optional **note** for the approver
8. **Submit**

Track in **Pending requests**. Get a *Reminder* button after 24 h. Once approved → **Download** or **Print** the signed copy.

Approvers — review and sign

- 1. **Pending approvals** → click a row → opens the doc
- 2. **Go to signature** button (top-right of drawer) → jumps to where you'll sign
- 3. **Preview & approve** → shows your signature on the page
- 4. **Confirm approval** OR **Go back**
- 5. Or **Reject** with a reason

Within 1 hour you can **Withdraw** from *Approved requests*.

Batch approve same-type requests: filter chip → tick boxes → **Approve selected**.

Mobile

- Pinch to zoom on PDFs.
- Top nav collapses to icons — same actions.
- iPhone: Safari → Share → **Add to Home Screen** for a standalone app feel.
- Long PDFs lazy-load page by page; **X / Y loaded** indicator at the top.

Troubleshooting in 30 seconds

PROBLEM	FIX
Can't sign in	Try Forgot password? → email arrives → use new password
Pop-up blocked on print	Allow pop-ups for this site, try again
63-page PDF "error" on mobile	Hard refresh, give it 5 seconds for the loader. Loader text says X / Y loaded
Stale data	Each list auto-refreshes; or pull-down / leave tab + come back
Lost the password I just generated	Admin → Users → reveal it from the row
